Bachelor Seminar

Content:
The seminar deals with special problems in the areas of investment and financing. The students work independently on this problem and prepare a term paper. This can be done strongly based on literature, empirically or by working independently with formal models. A presentation is to be held on the topic.

Qualification goal/ competencies:
After completing the seminar "Investment and Financing", the students gained detailed knowledge of the most important fields of investment and financing. They are also able to work on their research results in a written term paper and present their results.

Success review:
Homework (approx. 15 p.) and presentation (approx. 20 min.), weighting 3:1
Examination language: German, English
