

## Location Würzburg

Together we develop the first artificial intelligence for B2B procurement helping purchase managers to achieve sourcing savings, to identify new innovative suppliers and to secure the whole Supply Chain against risks until Tier 4. Our clients are mainly OEM's from automotive and mechanics and producing industries with global networks.

# Frontend Developer (m/f)

We're looking for a talented Frontend Developer (m/f) to be part of our team in our headquarter in Würzburg. You will focus on the integration of new and existing frontend systems to adapt to the changing needs of our customers. In so doing you will be supported by a strongly scalable server structure and a team of highly talented developers.

### JOB TASKS

- You create and implement a state-of-the-art frontend architecture
- You work closely with our Customer Success Team to develop and improve the usability and user experience for our scoutbee Platform
- You continuously investigate and incorporate new technologies
- You play a key role within our team of highly talented developers and develop new user-facing features

### QUALIFICATIONS

- You have a high level of experience as a frontend developer with several years of experience in software design and architecture
- You have a very strong knowledge and track record in reactJS and Redux
- You are characterized by being a team player with the demonstrated ability to work in a collaborative environment / agile, interdisciplinary development team
- You have an understanding of backend web technologies
- You have a high class command of English; additional languages are a plus

### BENEFITS

- 

sports and a lot of fun
- 

stylish office
- 

free snacks and drinks
- 

international team
- 

flexible working hours
- 

lightning development
