

Course Evaluation - Internal Report for FT25_622 Supply Chain Management (Richard Pibernik)

Project Title: **Course Evaluation - MBS**

Courses Audience: **27**

Responses Received: **24**

Response Ratio: **88.89%**

Report Comments

Dear Lecturer,

Please find below the evaluation results for your course.

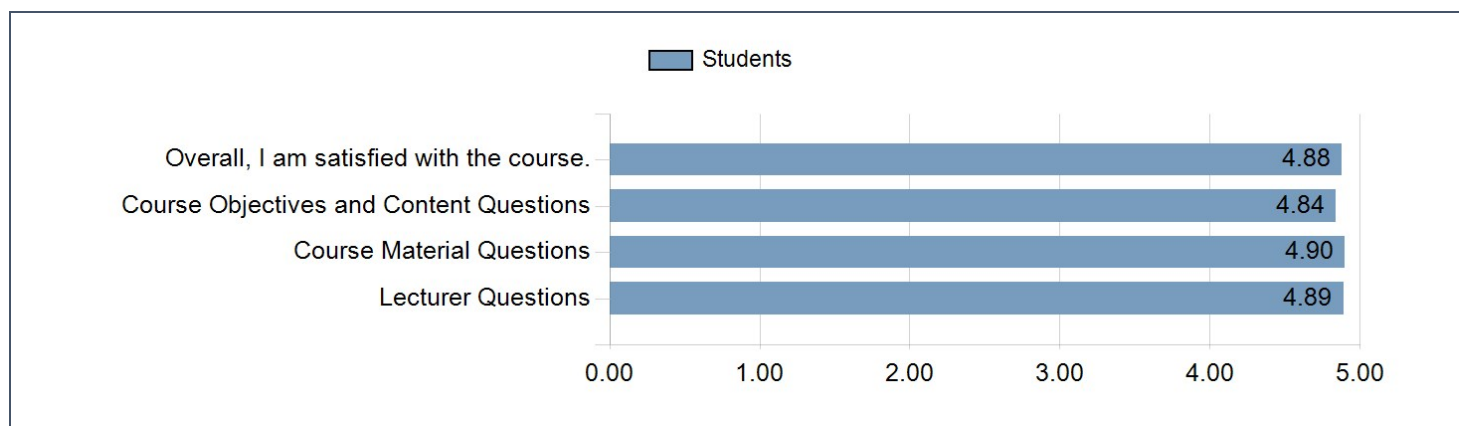

In case of any further questions regarding the process of the evaluation, please do not hesitate to contact our Evaluation team via evaluation@mannheim-business-school.com.

If you have any further questions regarding other topics, please get in touch with the respective Program Management team.

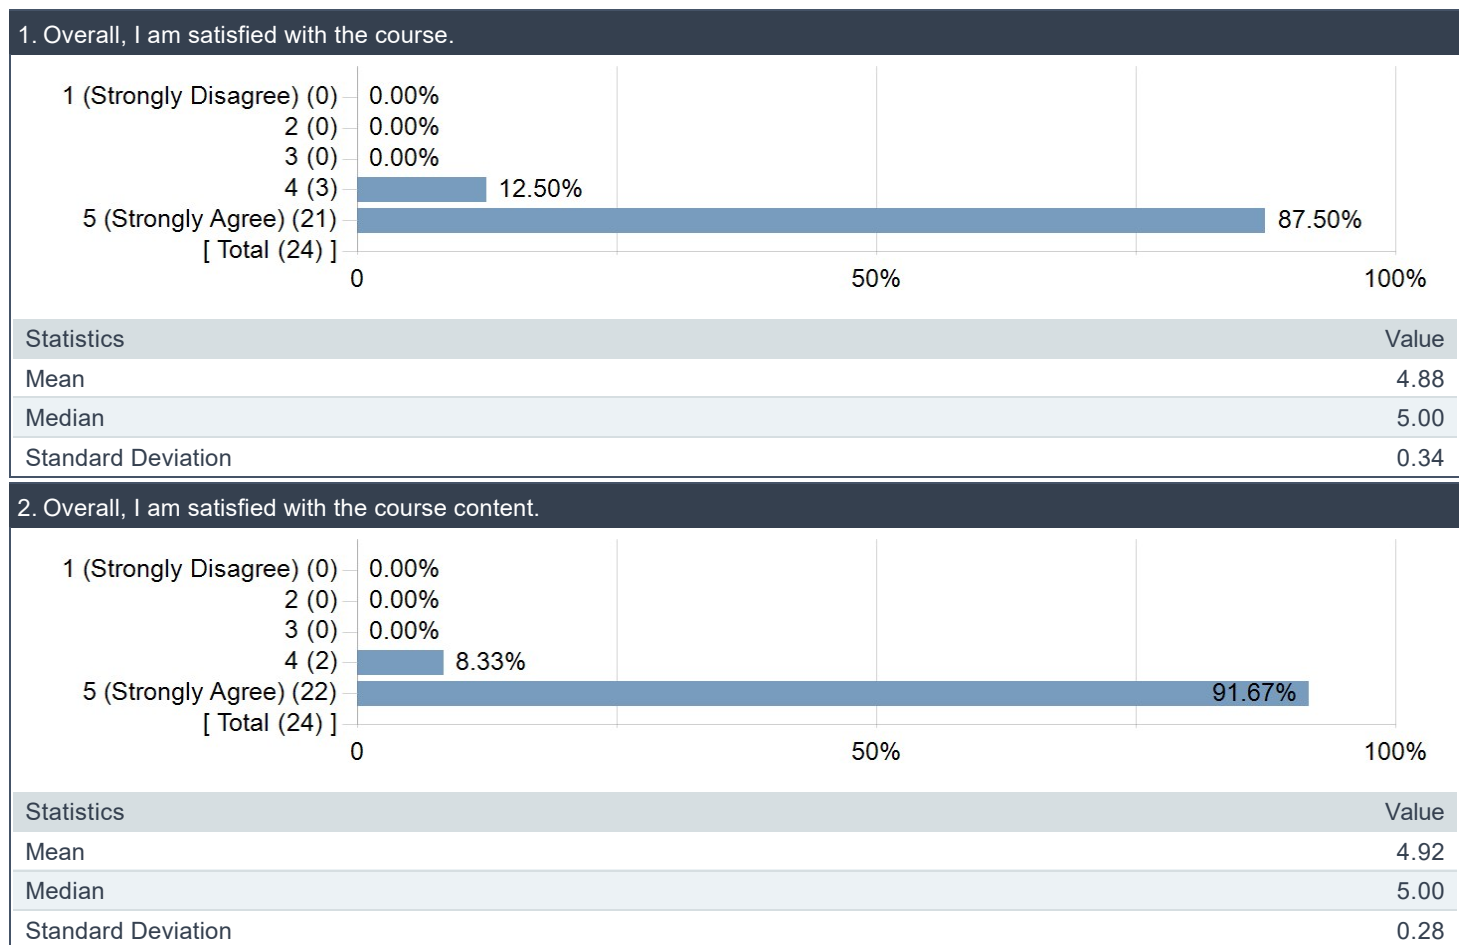

Thank you for your commitment and for being a part of our MBS program,

Your MBS Team

Summary Block

Course Questions

3. The course focused on relevant topics.

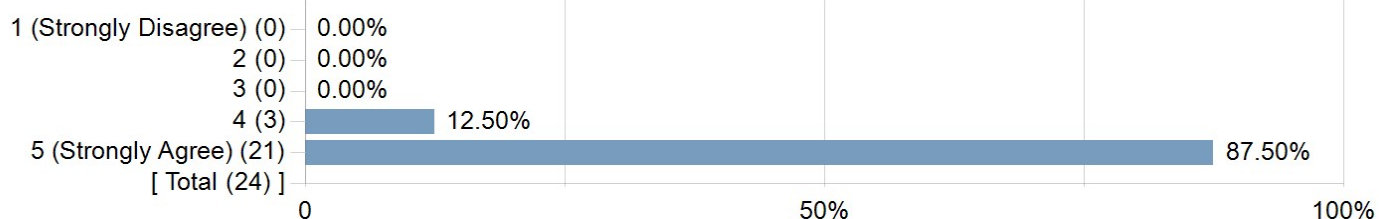

Statistics	Value
Mean	4.92
Median	5.00
Standard Deviation	0.28

4. I am leaving with new skills, tools and frameworks that I can apply to my work.

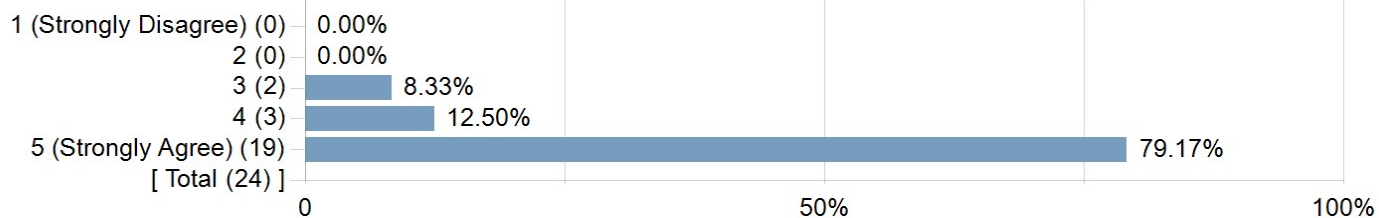

Statistics	Value
Mean	4.79
Median	5.00
Standard Deviation	0.51

5. The content of the course was adequate.

Statistics	Value
Mean	4.88
Median	5.00
Standard Deviation	0.34

6. The timing and rhythm of the course were adequate.

Statistics	Value
Mean	4.71
Median	5.00
Standard Deviation	0.62

7. Overall, I am satisfied with the course material that was used for this course.

Statistics	Value
Mean	4.92
Median	5.00
Standard Deviation	0.28

8. The course material was helpful to prepare and follow the course.

Statistics	Value
Mean	4.88
Median	5.00
Standard Deviation	0.34

Lecturer Questions

1. Overall, I am satisfied with the lecturer.

Statistics	Value
Mean	4.88
Median	5.00
Standard Deviation	0.34

2. The lecturer was able to arouse and maintain my interest in the subject.

Statistics	Value
Mean	4.88
Median	5.00
Standard Deviation	0.34

3. The lecturer was competent in his/her subject.

Statistics	Value
Mean	4.92
Median	5.00
Standard Deviation	0.28

4. The lecturer connected well with the group.

Statistics	Value
Mean	4.92
Median	5.00
Standard Deviation	0.28

5. The lecturer managed timing and structure well.

Statistics	Value
Mean	4.88
Median	5.00
Standard Deviation	0.34

Comments

Did you prepare the course as advised in the syllabus? If no please share the reasons with us.

yes
Yes
The harvard supply chain game was enjoyable and helped to understand the main concerns of the topic

Would you recommend to keep this course in the curriculum?

Comments
Yes
Yes
Yes
yes Absolutely
yes

Yes
Yes
Yes
Yes
Yes
Yes
yes definitely
Yes, but
Yes
I would recommend to make it mandatory
Yes, this course should be must have course. As, the industry in Germany are more into supply chain

What did you especially like about the course?

Comments
I liked everything about the course. The professor set the stage with the global supply chain simulation which was very interesting and useful. Throughout the course, topics were explained with practical examples and cases. This approach if followed in other courses as well, it will be very useful
The content, professor, simulation, case studies, practicality of the course.
Simulation
The professor was really enthusiastic and learnt a lot from him
real case studies, the way the professor teaches, variety of topics discussed
Lovely Professor
Extremely insightful not only for supply chain domain but also from holistic management perspective. Intriguing and fascinating presentation well balanced with practical examples. Very relevant and helpful case studies and experiments.
Corse structure and way of teaching
The hands-on approach followed by the professor
Everything
Professor
Analytics to solve supply chain problem, Professor enthusiasm
the structure and the topics covered and the readings/case studies
Real life cases and the pre-course simulation.
Expertise of the professor
The lecturer and the content was relevant. Especially, the Harvard Simulation before the beginning of the course.
The initial demand forecasting simulation helped us get a context of the course. Professor's energy and enthusiasm in the class lectures were eccentric and helped us a lot to get interested in the subject.

If you were to recommend improvements for this course, what changes would you make?

Comments
More days for the classes.
NA
Assign more days to the cross
It was fine. i dont see how it can be improved further. Maybe, for assignments, we could have more case options than just Crocs for people who prefer structure
It should be a core course, not an elective
Make it at least 5 day course
–
Increase the duration maybe. Lot of things are cramped into 4 days . 5 days maybe provided optimum pace.
may be make it a mandatory course or have more days allocated
I think you need more than 4 days to understand and apply the content of the course properly.
Review more industries beyond clothes; commodities such as: oil and gas, metals, food, energy.
There should also be 2nd simulation at the end of the break.
