Comments

N/A

Excellent Professor gave practical insights and stimulated interest in the subject.

Excellent brainstorming sessions under the guidance of Prof through the whole course. Prof's inspiring presentation showcase real business world applications and insights how to apply technology in SC planning and collaboration.

I did not find the subject related to Digital Transformation

It was an insightful session.

Pibernik is one of my favorite proffesors so far. His quality is amazing.

Great professor with great experience to share about very current and relevant topics

It was a very insightful class, I learned alot from it

Excellent class

Pre-work assignments were long and somewhat necessary. Great professor and interesting subject matter.

I liked the teachings of the professor in general. But I would have liked him to cover some real hands on exercise of digital transformation. Maybe some modeling with some synthetic data of bakery inventory model etc; which the real company is doing.

Excellent!

Would recommend not adjusting the assignments from two to one- seems like a large change that could impact ability to get a good grade

Clear explanations and engaging lectures made complex topics easy to understand.

Fast paced class but good
