# Auswertungsteil der offenen Fragen

#### Your personal comments concerning the lecture

What aspects of the lecture and/or the lecturer do you like?

- \* appropriate case studies for the course material
  - \* the reference to real economy
  - \* interactive format of the lecture
- many understandable practical examples
- very motivated
  - is able to make an interesting lecture
  - does not want us to learn stupid things by heart
- A lot of case studies and real life applications make the content very relatable. Also, the block format is good
- Blockveranstaltung
- Emphasizes on discussion, "mind-storming ", encourages us to think ourselves
- Especially the showcase of companies that are actually applying the concepts we are discussing makes the content a lot easier to understand. And you also get to know why this content is relevant. Additionally the guest lecture was a nice example of how companies can also deal with the concepts presented in the lecture. So we were able to get to know completely contrasting reasons to offshore.
- I liked the blocked time schedule very much.
- I really liked the Harvard business simulation which covered all the aspects we have discussed in theory.
- Lecture is hold in a Block structure
- Motivation/ Passion of the lecturer Blockseminar
- Nice man
- Scheme of the lecture (Blockseminar), guest speaker
- Sehr belebter Vortragsstil Praxisbeispiele Praxisvortrag
- The examples of the teacher
- The lecture is pretty good and he can explain the questions really well.
- The simulation and guess speaker
- The simulation was very nice.
- whole course based on practical business examples

What aspects of the lecture and/or the lecturer do you not like? What improvements would you recommend?

- A lot of Readings. Content is quite interesting but It takes a lot of time.
- Before I talked to people who already took the course, I did not really know what I should expect the exam to be like
- Bunch of literature, it would be better to get a homework of reading lietarure x, y, etc
- N/a
- None
- So far I don't understand the importance of the reading list. It is a very long list of material but we have only briefly discussed it in class.
- Sometimes he answers the questions only orally I wish also something can be written in ppt
- The guest lecture by Brose was (for me) not very beneficial.

  The presentation was sometimes very confusing and the overall conclusion/learning was not really clear for me.
- Too many readings
- falls der Kurs in Zukunft auch als Blockveranstaltung gehalten wird, wäre es angenehmer für die Studenten, die Veranstaltung bereits am Anfang des Semesters zu halten.
- n/a
