1	Have more days for this course not because of the lecturer but because of the big topic.	4/14/2022 5:59 PM
2	The professor is clearly passionate, knowledgeable and has lots of stories to share from his consulting and academic experiences. However, I found myself looking for more structure. For example setting a base with fundamentals before heading into deeper concepts. We spent too long on some topics that the professor was more passionate about and I couldn't help feeling that there was more that we could have learned on this topic, considering a majority don't have a background and may have interacted with Supply Chain only superficially.	4/14/2022 4:57 PM
3	The course should last longer to dig deeper in the digital tools.	4/14/2022 4:57 PM
4	Just keep the same professor!	4/14/2022 4:54 PM
5	Time in class for the simulation	4/14/2022 4:52 PM

11	The slide with the 4 squares ( Sc Analytics, Sc Systems & Tech., Global Design and SC Org.) its not so clear. At the end of the lecture u get the idea, but the slide could be improved.	4/14/2022 4:49 PM
